

Please stop Mexican trucks & drivers from coming into the USA! I live in NW Missouri and over 75% of the drivers stopped are Mexican. their equipment is unsafe, they don't understand our road signs and laws, they bring in drugs along with their other merchandise. they put use at high risk of injury or death. Why are they being allowed in with out proper inspection. Why are they allowed in without proper insurance? We are not allowed into Mexico without proper license and insurance. We have to understand their laws or they confiscate our automobile. We are not given any welfare or free medical care. Please stop them from flooding into our country!
